My work for Vikes EA

Vikes EA is the UVic Vikes Esports Association. As the Marketing Executive, I was responsible for creating logos, posters, designs, and recording and editing promotional videos for events and fundraisers.

Here is some of the work I have done for them.

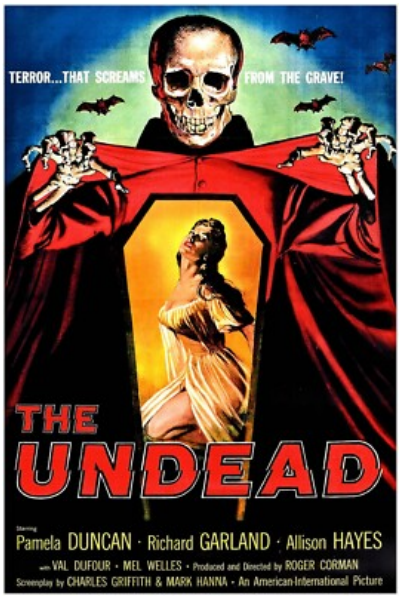
Coloured Logos for Vikes EA

Icons for Vikes EA hoodie design & early shirt concept

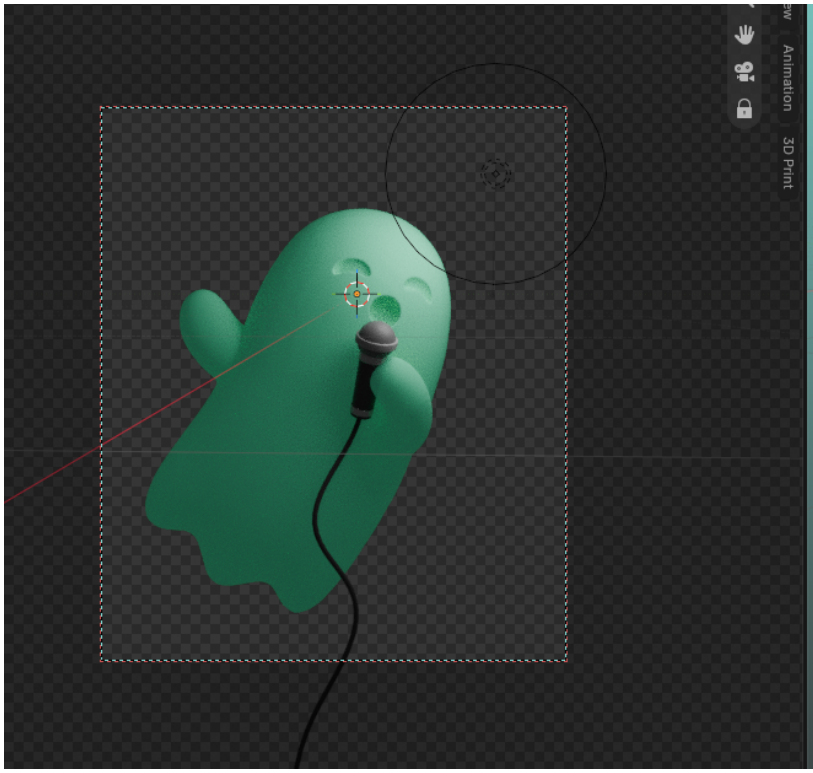
Poster for Halloween Event

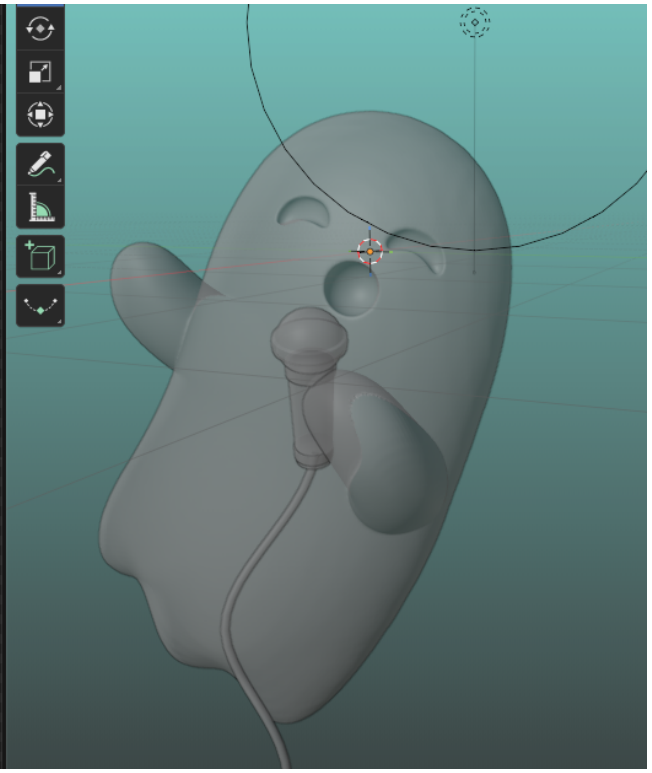
Process for Halloween Poster

For this poster, I wanted to try to use 3D modeling. For the overall look, I took inspiration from old horror movie posters and the glow and distress of Adventure Time title cards.



I then went to Blender to 3D model and sculp a singing ghost character along with a microphone before texturing and touching up the light to get the exact look I wanted.





Poster for Teamfight Tactics Tournament

Poster for Vikes EA interest

Poster for hiring

Poster for team tryouts

Design for getting new players to join teams

Design for Game Night fundraiser event
